Investment Objectives and Strategies

This fund's objective is to achieve long-term capital growth by investing primarily in equity securities of companies in Greater China, which includes the People's Republic of China, Hong Kong and Taiwan, and in equity securities of companies that benefit from exposure to this region.

The portfolio manager employs a fundamental bottom-up approach to try to take advantage of pricing inefficiencies that may arise in these equity markets. This growth focused and research-oriented approach favours smaller, entrepreneurial companies.
