BMO Intuition® RESP Portfolios

About BMO Intuition® Education Savings Plan

Making it easy to save for a child's education . . .

BMO Intuition RESP Portfolios allow a client to save money for a loved one's education, whether it be their child, grandchild, niece or nephew, through a diversified RESP mutual fund portfolio.

BMO Intuition Portfolio client benefits include:

- Based upon strategic asset allocation
- Matched to your client's risk profile
- Helps optimize return for different risk tolerances
- Provides automatic rebalancing
- Access to professional money management

Portfolio Objective

BMO Intuition RESP Growth Portfolio is suited for the growth-oriented investor. Emphasis is placed primarily on BMO Mutual Funds invested in stock or equity investments to provide you with long-term growth and protection against inflation.

Your Strategic Portfolio is periodically monitored and every quarter, if necessary, assets are shifted within your Portfolio to ensure that the original Portfolio allocations are maintained.

Disclaimer

BMO Mutual Funds and BMO Intuition Portfolios are offered by BMO Investments Inc., a financial services firm and separate legal entity from Bank of Montreal.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments and the use of an asset allocation service. Please read the prospectus of the mutual fund before investing, including the prospectus of the participating funds in which investments may be made under an asset allocation service. Except as otherwise noted, the indicated rates of return are the historical annual compounded total returns including changes in unit or share value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. For portfolios offered under an asset allocation service, the indicated rates of return assume the investment strategy recommended by the asset allocation service is used and are after deduction of the fees and charges in respect of the service. In addition, the returns are based on the historical annual compounded total returns (as described above) of the participating funds. Mutual funds are not guaranteed or covered by the Canada Deposit Insurance Corporation, the Régie de l'assurance-dépôts du Québec or by any other government deposit insurer. The value of mutual funds change frequently and past performance may not be repeated.

On October 21, 2005, the overall weightings of the funds within these portfolios, as well as the fund holdings themselves were adjusted. This adjustment could have affected the performance of the portfolios, had it been in effect throughout the performance measurement periods presented.
